REBELLION IN CUBA

New Facts and Figures of the Uprising.

THE PRESENT SITUATION TODAY.

A Gentleman of Forty-Five Years Residence in Cuba Gives a Timely Review of the Past and Present of the Rebellion. Information That Could Not Be Sent by Wire.

NEW YORK, May 25.—A gentleman, for 45 years a resident of Cuba, in an interview with a representative of the Associated Press, has furnished the following timely resume of the past and present of the Cuban rebellion of today, or that initiated Feb. 24, 1895. Owing to his interests in Cuba, and his being in sympathy with the Cubans, he refused to permit his name to be used.

"The present rebellion," he said, "was devised and planned by Cubans in New York. Following its inception, a carefully worked-out propaganda was made in Eastern Cuba and was conducted with great secrecy. It had many active agents among the best classes in Central and Eastern Cuba.

"Since the close of the last war, the very active propaganda of the autonomists has educated the masses. Today they want equal freedom for all.

"Everything was done by the masses through their representative to persuade Spain to grant their reasonable demands, but the long-promised reforms were deferred from year to year.

"Early in 1895, many of the colored or working classes were idle. Then, on the 24th of February, 1895, a number raised the flag of rebellion and demanded a 'Cuba libre or free Cuba.' The standard of revolt was set up in a number of places and the blacks joined the petty leaders.

"Simultaneously, in Central Cuba, small parties formed. At that time the movement was not deemed a really serious one. However, the small parties maintained their independence and grew in number and strength. Then they had few or no arms, but all had the death-dealing machete.

"The Spanish officials, not believing that the movement was serious, so informed the government, and made little of the whole uprising. Later, Spain became alarmed and sent out General Martinez Campos, who, instead of bringing the long-promised reforms, brought soldiers, whereas, if he had come alone, duly authorized to adjust all the differences, the extension of the rebellion would have been prevented and a settlement had.

"While the insular events were multiplying Generals Maximo Gomez and Antonio Maceo landed with considerable following. They were joined later by the late Jose Marti. Then General Crombet and his party landed. They were ambushed by the Spanish, Crombet was killed, the survivors were made prisoners, and today are in the Moro Castle at Havana.

"When it became known that Gomez, Marti and Maceo, had landed, hundreds of Cubans abandoned their homes and joined them.

"Generals Gomez, Marti and the others, commenced organizing their respective commands. Later, reports came of skirmishes with the Spanish troops. The rebels made many prisoners and thus secured arms.

"The rebels foraged for all living supplies. Next the rebels made the owners of estates pay a tax on all cattle slaughtered for general or private consumption. Herds were driven into the mountain fastnesses for future supplies. Then, as now, they had more men than could be armed. The best men were selected and armed as tirradores or sharpshooters. The men without arms, saving the machete, have cultivated large tracts of rich mountain lands, growing corn, pumpkins, sweet potatoes and plants. Thus food supplies and commissariat departments are not lacking.

"Eastern Cuba has been and remains the main center of the rebellion. The people in central and eastern Cuba, who are openly on the side of the rebels, sympathize with them and keep them fully advised of every movement of the royal troops."

In reply to a question regarding the rebel strength, the gentleman said that fully 50,000 men are in the various rebel commands, of whom say three-fourths have arms.

"Quite recently," said he, "when General Calixto Garcia landed, hundreds of whites and blacks instantly joined his standard, many of them in excellent social position.

"The men in the rebel army are about half whites and half negroes—the latter make the best soldiers.

"As a general rule, in fights they fire two or three volleys, close with the enemy and rush in, machete in hand, shouting their favorite cry, 'A machete!'

"All sense of danger seems to disappear, and they fight like demons and make fearful adversaries. Arms are cut off at a blow and heads split open to the very chin.

"The rebel army is officered by whites and blacks. Discipline is rigidly enforced. Robbery in the broad sense also is punished."

When asked as the rebel method of attack, the speaker said that it was of the usual Cuban type. "They post their tirradores or sharpshooters in parties of 50. First they engage the advance guard of the royalists from ambush, firing upon them, and producing panic and death. If crowded too much that party will fall back, while a new one of 50 will make a fresh attack, and so they simply harass the Spaniards and expose themselves as little as possible.

The Cubans are as crafty in ambushing as Indians.

"In many of skirmishes in which the tirradores fell back when outnumbered, such engagements are made to do duty as Spanish victories.

"The policy of the Spanish troops is one of makeshifts, rather than of search and battling with the Cubans.

"The real fighting today is in the western part of central Cuba and to that part the rebels are hurrying forward every available man.

"In many coast cities and towns, trade is at a standstill, and there is much misery and want, milk selling at one dollar a gallon. No vegetables are available, and there is great difficulty in getting meat. But for breadstuffs receives from the United States and elsewhere famine would follow.

"Despite all statements to the contrary, the rebels cross the trocha whenever they please.

"The continued presence of Antonio Maceo in the province of Pinar del Rio is of his own volition. His following today is well armed and have ammunition.

"The Cubans have orders to release all prisoners captured, after securing their arms and supplies. On the other hand, however, Spanish commanders are responsible for the shooting of hundreds of defenseless persons and reporting the affair as a Spanish victory.

"Early in the rebellion women were not allowed in the Cuban bands, but since the decree ordering the abandoning of rural towns and hamlets had been put in force thousands of women have joined the rebels, many of them taking their families with them.

"One mother left her Spanish husband and took nine sons into the Cuban army. The Spanish destroy everything as they march.

"The Cubans do not now hold any town, village or port; but, when advised of expeditions the rebels concentrate near the coast and cover the land of men and arms, having reduced this to a science. The steamers lay to at night, outside of the marine league. The boats painted a light drab, are swung over the side, when they are laden with men and arms. If a man of war appears, she sees the steamer, while the boats, without lights make for the shore. All the expeditions dispatched to Cuba have landed except that of the Competitor. Nineteen expeditions have made successful trips. Thousands of rifles and machetes and tens of thousands of cartridges have reached the rebels, including some cannon, dynamite and hospital stores.

"The climate today, between rain and moisture, is an invaluable ally to the Cubans. It pens up their enemies, while they can recruit and get ready for the dry season campaign.

"Regarding American investments in Cuba, many millions of American money are invested in mines and sugar estates in Cuba.

"The question of belligerency was discussed. 'Any delay in that line,' the Cuban residents say, 'will simply prolong the war. The rebels say that they will not accept any Cuban under Spanish rule.'

"It must be a free Cuba. If, per chance, the United States intervened and asked for the sale of Cuba to Cubans, under an American guarantee, such an arrangement would lead to a cessation of hostilities. Short of that they will accept nothing from Spain. Failing recognition as belligerents, they will fight for 10 years.

"Havana and western Cuba are loyal to Spain. Many loyal Spaniards, however, want fuller rights for Cuba.

"Annexation is not understood, nor will the masses accept it. They would deem it but a change of masters without any benefit to them.

"The damage done to the coffee and sugar estates in Cuba," he says, "is almost irreparable."

He said that "hundreds of Spaniards are sent to Cuba to take official positions. Many are appointed with the clear and tacit understanding that one-half of their gains were to be remitted to the officials who had secured their appointment. Any deficit in the Cuban budget is made good by an additional tax on Cuban property."

This informant made a single exception to official irregularity in Cuba, that of General Martinez Campos, who, he said, was an honest captain general.

GENERAL FAIRCHILD DEAD.

La Grippe and a Complication of Troubles Caused His Demise.

MADISON, Wis., May 25.—General Lucius Fairchild, commander-in-chief of the Loyal Legion, and ex-commander-in-chief of the G. A. R., died at 6:40 Saturday night at his residence in this city. General Fairchild has suffered from the effects of the la grippe for several weeks, and a month ago the ailment was complicated by kidney trouble. Until a few days ago it was thought he would recover. At noon Saturday there was a change for the worse, and at 4 o'clock he sank into a comatose condition and did not regain consciousness. His wife and daughter were present when the end came.

General Lucius Fairchild was a native of Ohio, 65 years old. He was secretary of state of Wisconsin, then three times governor, afterward consul general to Mexico and minister to Spain. Later he was commander-in-chief of the G. A. R. and Loyal Legion. A widow and three daughters survive.

Explosion in a Glass Factory.

HARTFORD CITY, Ind., May 25.—An explosion occurred here yesterday at the glass factory, through a defective blast in the big tank. Several persons were badly burned. Desire Moll inhaled steam and is dying. Master Teaser badly burned; may die. William Sutton, Emil Wittebort and Jacob Moore all more or less burned.

Another Gasoline Stove Explodes With Fatal Results.

FOUR OF ONE FAMILY KILLED.

The Other Two Members Badly Bruised and Burned, One of Them Fatally—The Bodies of the Dead Victims Burned to a Crisp—Names of the Dead and Injured. Property Loss Small.

CHICAGO, May 25.—By the explosion of a gasoline stove, on Townsend street, yesterday, a family of six persons was almost exterminated. Four are dead and a fifth is so badly burned that death is almost certain. The names of the dead are:

Otto Malm, a carpenter, 32 years old. Sima Malm, 8 years old. Hilya Malm, 6 years old. Otto Malm, Jr., 3 years old.

The injured are: Mrs. Ella Malm, 33 years old, burned about the hands, arms and face; will recover. Ellen Malm, 8 years old, severely burned about the head and body; will probably die.

Mrs. Malm, the wife and mother, had risen to prepare breakfast, and her husband and children were still in bed and asleep. She lighted a gasoline stove, when the reservoir which holds the supply of oil exploded, throwing the burning fluid about the rooms. Before the sleeping members of the family could be taken out, or even warned, they were shut in by flames and burned almost to a crisp.

When the explosion occurred Mrs. Malm rushed frantically from the dwelling and screamed for help. She then returned to the house, soon reappearing with her 3-year-old child in her arms. Pieces of burning clothing still adhered to the burned flesh of the babe and it died shortly afterward. The screams of the mother had by this time brought the neighbors to the scene.

The fire department was summoned and the firemen rushed into the rooms and removed the inmates while water was thrown upon the flames.

The mother's burns were attended to by the doctors and it was found they were comparatively light. She was removed to the home of friends.

IN THE PRESIDENT'S HANDS.

The Much-Debated River and Harbor Bill Passes Through Congress.

WASHINGTON, May 25.—The river and harbor bill was adopted in its entirety by the house and senate Saturday, received the signatures of Vice President Stevenson and Speaker Reed and went to the president. It is one of the largest, if not the largest, river and harbor bill ever passed by congress. It carries nearly \$80,000,000. If the president does not veto it he will disappoint the general expectation. There is hardly a Democratic congressman who does not predict executive disapproval, and the Republicans and some Democrats are preparing to pass the bill despite the veto. It was reported from a good source that the secretary of war is already at work compiling data for the presidential message.

A Democratic senator said last night: "I am in favor of the bill. In the interests of my constituency I could not afford to be otherwise. But I have no hesitation in saying that the president has in this bill a magnificent opportunity for a scorching message, and I have no doubt but that he will take advantage of it. In fact I have reason for thinking it is certain that he will."

The recommendations of the local board of engineers for river improvements during the coming fiscal year were about \$60,000,000. Owing to the condition of the treasury, General Craighead, chief of engineers, was instructed by the administration to cut their estimates down as low as it was possible to do so. He got them down to the neighborhood of \$12,000,000. Under the present bill fully \$25,000,000 can be expended during the coming fiscal year and continuous contracts made for \$55,000,000 more.

The opinion prevails that after a merciless dissection of the bill the president will severely arraign congress for an attempt to raid the treasury. There is no question, however, but that the bill will be passed over the president's head.

GENERAL JOHN ECHOLS DEAD.

Receiver and General Manager of the Chesapeake and Ohio Railroad.

STAUNTON, Va., May 25.—General John Echols, receiver and general manager of the Chesapeake, Ohio and Southwestern railroad of Kentucky, and president of the National Valley bank of Staunton, died at the residence of his son, State Senator Edward Echols, at 8 o'clock last night, of uremic poisoning.

General Echols was born in Lynchburg, Va., in 1823, and was educated at Harvard, Washington and Lee university and the Virginia military institute. He was a member of the Stonewall brigade and was badly wounded at the battle of Kernstown. After he moved to Staunton he commenced the practice of law.

Twelve years ago he moved to Kentucky, where he has been prominent in railroad circles. He was a close friend of Collis P. Huntington, representing Huntington's interests in Kentucky and southwestern railroad circles. He was of commanding appearance, six feet four inches tall and weighing 260 pounds. General Echols married twice.

EDITORS ELECTED.

Methodists Have About Completed the General Conference Work.

CLEVELAND, May 25.—Bishop Warren presided over Saturday's session of the Methodist general conference. Rev. F. B. Scott was elected editor of the Southwestern Advocate by 265 votes, 53 more than were necessary. Dr. E. W. Hammond, the displaced editor, will be paid his salary until other work can be procured for him.

Dr. Homer Eaton was made treasurer and Dr. Louis Curtis assistant treasurer of the missionary society. Dr. F. L. Naglee was elected editor of The Haus and Herd, and Dr. J. F. Barry of Detroit was elected editor of The Epworth Herald.

Thursday, May 28, at 1 o'clock, was the time fixed for final adjournment.

Dr. J. M. Buckley presented the report of the committee on Episcopacy. He reported the charges of Dr. A. C. Bowdish against Bishops Fowler, Fitzgerald and Warren as to his transfer from New York (East) to New England conference, and reviewed the case in full.

The report was that no ground existed for complaint, and the report was sustained. The administration and character of the bishops was approved, and Bishop Thoburn was declared effective. The non-effectiveness of Bishop Taylor of Africa and his retirement was recommended, and the report was concurred in.

The retirement of Bishop Taylor makes it necessary to elect another missionary bishop. Among the men mentioned for the place by delegates are Rev. Dr. J. C. Hartsell of Louisiana, Rev. Dr. A. B. Leonard of New York, Rev. Dr. Henry Monroe (colored) of Delaware, and Rev. Dr. M. C. B. Mason (colored) of Savannah.

GAS WRECKS A MINE.

Two Men Killed and Twelve Hurt, Six of Them Fatally.

MIDDLESBORO, Ky., May 25.—Gas in a coal mine, midway between here and Big Stone Gap, exploded Saturday, killing John Taggart of Big Stone Gap and Mr. Hardin, and dangerously wounded 12 others, six of whom may die. The mine caved in and work is suspended.

Taggart leaves a wife and three children. Taggart was one of the most prominent coal operators in the United States. The company with which he was connected sold out their Pennsylvania mines to Frick five years ago for \$5,000,000.

Jumped the Track at a Curve.

DENVER, May 25.—A car on the Agate avenue line of the Tramway company got out of the control of the motorman near midnight Saturday night, jumped the track at a curve when going down hill at high speed and turned over. There were 74 passengers on the car, a dozen of whom were injured. The most seriously injured are: Mrs. Sarah Hanson, aged 48, internal injuries, bruised and cut; may die; Mrs. Jessie Conant, aged 25, concussion of the brain, probably internally injured; Mrs. Albert Zimmerman, aged 36, scalp wounds and cut over forehead.

Cut His Throat With a Razor.

COALDALE, Ala., May 25.—J. A. Gillespie, vice president of the Alabama Street Paving Brick company, suicided by cutting his throat from ear to ear with a razor yesterday. He had been in ill health for some time and the recent death of his father is said to have worried him very much. His home was in Knoxville, from which place he had but recently returned. He was 40 years old and leaves a family.

Claims Self-Defense.

WACO, Tex., May 25.—On the Robertson farm and ranch near Crawford, McLennan county, yesterday, Captain C. F. Bewley was shot and instantly killed. General Felix H. Robertson surrendered to Sheriff Baker, stating that he had been compelled to shoot Captain Bewley in self-defense. Robertson was the youngest brigadier in the confederate service. The killing was caused by a disagreement.

Quarterly Pension Allotment.

WASHINGTON, May 25.—The secretary of the interior has made a requisition on the treasury for \$10,210,000 to be used in quarterly pension payments at the following agencies next month: Columbus, O., \$3,700,000; Washington, \$1,320,000; Boston, \$1,690,000; Detroit, \$1,600,000; San Francisco, \$680,000; Augusta, Me., \$625,000.

Cyclone in Iowa.

KANSAS CITY, Mo., May 25.—The Times has just received word through the local telegraph office of the Maple Leaf road that a cyclone had struck Palmarie, Ia., 15 miles north of Des Moines, last night, killing nine people and injuring a number. Further particulars unobtainable at present.

K. OF P. UNITED.

Supreme Chancellor Richie Says That the Uniform Rank Will Not Be Separated.

LIMA, O., May 25.—Supreme Chancellor Knights of Pythias Richie said in reference to the Milwaukee telegram, indicating the separation of the uniform rank into four sections, representing as many sections of the country:

"There will be no separation of the uniform rank on sectional or any other lines. The order has done too much to unify, harmonize and bring together in one common brotherhood the best men of all sections of the country to be affected or its membership misled by any such statements for whatsoever purpose made."

PREPARING TO QUIT.

Next Week Senators and Congressmen May Adjourn.

PROGRAM FOR THE WEEK.

Appropriation Bills May Crowd Out Everything Else, Although Many Measures Are Likely to Be Brought Forward if an Opportunity Presents Itself—Forecast of Both Houses.

WASHINGTON, May 25.—The outlook as to the line of proceeding in the senate during the present week is not very clear. It is the general understanding that the debate on Senator Butler's bond resolution will be continued today, but if it holds the floor beyond the day there will be an effort to displace it with the general deficiency appropriation bill. This is the only one of the appropriation bills which has not received the attention of the senate, and as it has now been reported the members of the appropriation committee are naturally anxious to take it up at the earliest practicable date.

On the other hand, Senator Butler, who has charge of the bond bill, feels that if a vote is not had on his bill before this appropriation bill is passed, it may be impossible to hold a quorum, and will therefore insist upon going forward to a finish before the deficiency bill is considered. He thinks that it will be possible to conclude the debate upon the bond bill today or at the latest tomorrow. Senators Dubois and Pritchard have stated that they would ask to be heard on the bond bill before a vote is taken, and it is probable also that Senator Allison may submit some remarks upon it.

The opponents of the bond bill will try to prevent a vote being reached at all, and some of them will obstruct its progress to the fullest extent possible with appropriation bills and by other legitimate means at their command. Of the 15 general appropriation bills only six have become laws, leaving eight still to be sent to the president, and none of these except the legislative and the river and harbor bill are entirely out of conference. There will therefore be numerous conference reports to be presented, and as these are always privileged matters, they can be used to displace the bond bill. Ordinarily the deficiency bill would not occasion prolonged debate, but it may be used to prevent the consideration of other subjects.

It is expected that during the week the bill to repeal the division for the rebates of the tax on alcohol used in the arts will be passed without opposition or the consumption of much time. The filled cheese bill is also to be debated, as opportunity offers. Senator Lodge counts upon time to consider the immigration bill. Senator Mitchell of Oregon hopes also to put up his resolution providing for the election of United States senators by direct vote of the people, as does Senator Hill the bill defining contempt of court.

The talk is general that that the date of final adjournment will depend almost entirely upon the length of time the president may hold the river and harbor bill. Without having any direct authority for the supposition, senators generally expect a veto of that measure and count upon having to remain long enough to attempt to pass it despite the executive disapproval. Senator Allison expressed the opinion that in case of early action by the president, whether favorably or adversely, that the senate would be prepared to adjourn by the first of next week. In that event everything would be rushed aside this week for the appropriation bills.

HOUSE FORECAST.

Members Rapidly Clearing the Deck for Final Adjournment.

WASHINGTON, May 25.—The house is rapidly clearing the decks for final adjournment. Conference reports are likely to consume a large portion of the time of the house this week, as they did last. In the last days of a session little indulgence is given members, and by the operation of the rules in matters of high privilege like conference reports, questions can be brought to a vote at the will of the leaders.

The general clamor for unanimous consent legislation, which becomes louder as the session draws to a close, promises to be entirely checked at this session by the action of Mr. Kern (Pop., Neb.), if he persists in his threat. He demanded the "regular order" at every opportunity last week, and threatens to continue to do so to the end of his congressional career, unless the speaker recognizes him to move the passage of a bill to grant an abandoned military reservation to his state. If he carries out his program he will relieve Speaker Reed, whom he is seeking to embarrass, of the immense pressure to which a speaker is always subjected at such times.

The Phillips labor commission bill and the Erdman arbitration bill, which were crowded out by conference reports last week, will be brought up this week if time permits. The bill to repeal the free alcohol clause of the present tariff law in the shape of the compromise proposition agreed on by the friends and foes of the measure will, however, be allowed the right of way before these two bills.

There are also six election cases on the calendar. The Murray case, from South Carolina, and the Mitchell vs. Walsh, from New York, in both of which the majority reports favor the Republican contestants, are the most urgent of these, and it is the intention of the leaders to dispose of them.

Lecture

At M. E. Church, by Mr. H. Vincent Moore, America's youngest orator, Monday evening, June 1st, 1896. Subject, "What is the Matter With the World?" Admission 25 cents.

It May Do As Much For You.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all kidney and liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c. At J. James Wood's drug store.

WHAT FREE COINAGE MEANS.

Extract From Secretary Carlisle's Speech to the Workmen of Chicago.

The naked proposition is that the United States shall coin, at the public expense, for the exclusive benefit of the individuals and corporations owning the bullion, all the silver that may be presented at the mints into dollars containing 371½ grains of pure silver, or 412½ grains of standard silver, worth intrinsically about 51 or 52 cents, deliver the coins to the depositors of the bullion, and compel all the other people in the country to receive these coins at a valuation of 100 cents each in the payment of debts due them for property sold, for labor and service of all kinds, for pensions to soldiers and sailors and their widows and children, for losses sustained under policies issued by life and other insurance companies, for deposits in savings banks, trust companies, building associations and other institutions, for debts due to widows and orphans by guardians, executors and administrators of decedents' estates and other trustees, for salaries of all civil, military and naval officials, and the compensation of private soldiers and seamen, and, in short, for every kind of obligation recognized by the laws of the land, except only in cases where the prudent capitalist has taken the precaution in advance to contract for payment of debts due to him in gold or its equivalent.

To say nothing of the gross partiality and manifest injustice of such a policy, its immediate effect would be to contract our currency to the extent of about \$620,000,000 by stopping the use of gold as money and putting a premium upon the coins of that metal equal, or about equal, to the difference between the intrinsic value of the gold dollar and the intrinsic value of the silver dollar. Gold coins would at once become a commodity, and would be bought and sold by speculators in the market just as they were during the war, when we had a depreciated paper currency. The value of the silver dollar would fluctuate from day to day, moving up and down with the rise and fall of the commercial price of the bullion contained in it, as the Mexican dollar does now, and the premium on the gold dollar would of course fluctuate to the same extent, thus affording an opportunity to bullion brokers and speculators to buy and sell at a profit. It would cease to be used as money, because no man would pay his debt in gold dollars or in paper redeemable in gold dollars, worth 100 cents, when the law permitted him to pay it in silver dollars, worth only 51 or 52 cents. The sudden withdrawal of \$620,000,000 from the volume of currency in the country would undoubtedly produce a financial and industrial disturbance far more disastrous to the interests of labor than has ever been experienced in our history, and no man who has a particle of sympathy for working men and women and their dependent families can contemplate the possibility of such a calamity without feeling that it is his duty, whether he occupies a public or a private station, to employ every honorable means at his command to avert it.

While the sudden expulsion of \$620,000,000 in gold from our stock of money would itself be sufficient to create a financial disturbance unparalleled in the history of this or any other country, the situation would be very greatly aggravated by the fact that the purchasing power of all the remainder of our currency would be suddenly reduced about one-half; we should have only about two-thirds as much currency as we have now, and at the same time it would be so depreciated in value that it would require about twice as much as we have now to transact the business of the country, provided there should be any business to transact.

The Time for Building

Up the system is at this season. The cold weather has made unusual drains upon the vital forces. The blood has become impoverished and impure, and all the functions of the body suffer in consequence. Hood's sarsaparilla is the great builder, because it is the One True Blood Purifier and nerve tonic.

Hood's Pills become the favorite cathartic with all who use them. All druggists, 25c.

Strawberry Supper.

The ladies of the Fern Leaf Missionary Society will give a supper at Franklin School House, Friday evening, May 29, 8 to 11 o'clock. Supper 20 cents, refreshments 15 cents. Everybody invited.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida St. San Francisco, suffered from a dreadful cold, approaching consumption, tried without results everything else, then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in coughs and colds. Free trial bottles at J. James Wood's. Regular size 50c. and \$1.

Spring Medicine

Your blood in Spring is almost certain to be full of impurities—the accumulation of the winter months. Bad ventilation of sleeping rooms, impure air in dwellings, factories and shops, over-eating, heavy, improper foods, failure of the kidneys and liver properly to do extra work thus thrust upon them, are the prime causes of this condition. It is of the utmost importance that you

Purify Your Blood

Now, as when warmer weather comes and the tonic effect of cold bracing air is gone, your weak, thin, impure blood will not furnish necessary strength. That tired feeling, loss of appetite, will open the way for serious disease, ruined health, or breaking out of humors and impurities. To make pure, rich, red blood Hood's Sarsaparilla stands unequalled. Thousands testify to its merits. Millions take it as their Spring Medicine. Get Hood's, because

A woman's headaches may come from several causes. She may have a headache arising from nervousness, or from digestive disturbances. Nine cases in ten, her headaches come from disorders peculiar to her sex. It may show itself in the symptoms which are characteristic of a dozen disorders. Thousands of times women have been treated for the wrong disorders. Dr. Pierce's Favorite Prescription was compounded for the sole purpose of relieving womanhood of these ills and pains. Thousands of women have testified that after taking treatment from several physicians without benefit, the "Favorite Prescription" cured them completely and quickly. It has been used for over thirty years, and has an unbroken record of success.

The woman who hesitates is invited to send 21 one-cent stamps to cover only the cost of mailing a copy of Doctor Pierce's Common Sense Medical Adviser, which contains plain, clear information about all of the organs of the human body and their functions.

OPENING BALL GAMES.

A Few Changes Have Been Made. Thursday, Friday and Saturday the Dates.

A few changes have been made in the arrangements for the opening of the baseball season at the local park.

The initial game will be played next Thursday, instead of Friday as announced Saturday.

Commencing Thursday a series of three games will be played with the Pennsylvanians of Cincinnati, instead of the Gyms.

The Pennsylvanians have defeated every club they have met this season, the Gyms being the first they downed, and the local management concluded they would prove a stronger card than the latter team. The Pennsylvanians travel in a private car, and will come up in great style.

They are a gentlemanly set of ball tossers, and all who attend the opening games can rely on seeing some fine work on the diamond.

Let everybody turn out Thursday and give the boys a big send-off.

Lauterback came down Saturday and most of the other players will be here to-day.

Lattimer, of Cincinnati, one of the best back stops outside of the big league, has been signed.

The Maysvilles will put in the time till Thursday practicing and getting in shape for the opening games.

The BULLETIN hopes to have the pleasure of announcing to-morrow that the star pitcher has been signed. If Maysville secures him we will be able to down some of the league teams this season.

The local management are negotiating for one of the best pitchers outside of the big league. He has been tried and is of the best, and in addition to this and best of all he is a great favorite with Maysville lovers of the national sport.

The Reds shut out the Louisvilles Sunday, score 6 to 0. Rhines, the Reds' star pitcher and one of the greatest in the business, had his hand split during the game, and will be disabled for some time. This is bad luck for the Cincinnati team just as they start on their Eastern trip.

When Nature

Needs assistance it may be best to render it promptly, but one should remember to use even the most perfect remedies only when needed. The best and most simple and gentle remedy is the Syrup of Figs, manufactured by the California Fig Syrup Company.

DEATH OF J. H. WRIGHT.

The End Came Sunday After an Illness of Five Months—The Funeral.

Squire J. H. Wright, whose critical illness has been mentioned, died Sunday afternoon at 1:30 o'clock at his home on Fifth street.

He was a sufferer from a complication of diseases, and had been confined to his room most of the time for five months. A few months ago he underwent a surgical operation at Cincinnati in hopes of securing relief, but without success.

James Hatfield Wright was born in Miami County, Indiana, and was fifty-eight years of age. At the age of thirty, he came to this county where the rest of his days were spent. He resided for years at Murphysville, and served one or two terms as a Justice of the Peace in that district. He had resided in this city five or six years. His wife and five children, three daughters and two sons, survive him.

Deceased was a member of Confidence Lodge, F. and A. M., Joseph Heiser Post, G. A. R., and of Wyandotte Tribe No. 3, I. O. R. M. The Masons will have charge of the funeral services, but the G. A. R. and Red Men will take part in the services.

The funeral will occur to-morrow afternoon at 2 o'clock, at First Presbyterian Church, with religious services by Rev. John S. Hays, D. D. Interment in Maysville cemetery.

Masonic Notice.

The members of Confidence Lodge No. 52, F. and A. M., will meet to-night at 7 o'clock to take action in regard to the funeral of Brother J. H. Wright, which will occur at the First Presbyterian Church, Rev. John S. Hays, pastor, to-morrow (Tuesday) afternoon at 2 o'clock. Brethren will please be promptly on hand at 7 o'clock.

IMPORTANT RULING.

Educational Institutions in Kentucky Decided to be Exempt From Taxes.

The Court of Appeals decided Saturday the cases involving the right of the city, county or State to assess and collect taxes on property owned or used by purely charitable institutions and institutions of education not used for gain by any person or corporation.

The principal opinion was written in the case of the Kentucky Female Orphan School vs. the City of Louisville, but cases against Nazareth Academy, St. Xavier's College, the Baptist Theological Seminary and other similar institutions were heard with it, and the opinion deciding the property could not be taxed applies to all those named.

The following is the official abstract of the long opinion delivered by Judge Hazelrigg:

1. Upon the admitted facts, as attested in the current history of this beneficent institution, we are of the opinion that the appellant is an institution of "purely public charity" within the meaning of Section 170 of the Constitution, as well as an institution of education "not used or employed for gain by any person or corporation, and the income of which is devoted solely to the cause of education."

2. When the statute exempts the "institution" from taxation and no qualifying words are used showing or tending to show that only the property "used" by the institution or "connected" with the institution is to be exempt, then the associated entity—the corporate being—with its estate as an entirety, is embraced by the word "institution." The exemption of the institution would thus embrace its endowment fund and property in whatever form these assets might be found, as there is no qualifying clause or expression in the statute to indicate that anything else was meant.

CINCINNATI Post: "John Ingram, sixteen, one of the lads who found the pocketbook at the foot of Race street and who was arrested at Maysville, returned home Thursday. He called on Chief Deutsch and told him that he found the purse and a strange man took it from him and gave him \$27.50. The man tore the purse and kept the rest of the money, which, the lad said, was a handful. Ingram said that he started out to have a good time and get something good to eat. When he came back he had \$5.75 of the money left."

Constable Dawson made the arrest.

Miss Anna B. Bentley, a school teacher of East Liverpool, O., died of apoplexy while writing promotion cards. She appeared sleepy and fell from her chair after yawning.

Two men lost their lives near Dunsinane, N. B., while fighting forest fires, which are raging at many points along the Inter-Colonial railroad. The men were Peter Pollet and Joseph Doyle.

At Bluefield, W. Va., John Lackaye and John Jones were arrested, charged with robbing the Louisa (Ky.) postoffice two weeks ago. They are in jail at Williamsburg. Both are of good families at Louisa.

On the farm of William Kaufman, a short distance from Huntington, Ind., while a barn was being raised, one of the beams fell, killing Monroe Beghtol and seriously injured several others, some perhaps fatally.

J. A. Gillespie, vice president of the Alabama Street Paving Brick company at Coaldale, Ala., cut his throat with a razor. Death ensued shortly afterward. He was 40 years of age and had a family. Discrepancy was the cause.

Orin, 14-year-old son of Jacob Gillam, was drowned in Wild Cat creek, near Kokomo, Ind., Saturday. He refused to accompany his playmates to the river unless his father went along. The father witnessed the drowning, but could not save him.

Manager Thomas F. Hart of the Western Window Glass Manufacturers' association says that the report to the effect that all factories may not close down next Saturday, the 30th, is not true, as all fires will go out for the regular summer shutdown.

The island of Socorro, 400 miles off the Mexican coast, is in a state of eruption. Two months ago, which is the latest date that news was received from the island, lava was running down the mountain sides, overflowing the low lands and traveling to the sea.

Griffin Roberts, superintendent of the Lehigh and Wilkesbarre Coal company's collieries in the Honeybrook district, was found with his skull fractured at Hazleton, Pa. A piece of gas pipe, stained with blood was found near where the body lay, indicating that he was murdered.

At Wheeling, W. Va., Martin Luther Davis, a prominent colored attorney, was sent to the penitentiary for two years by Judge Jackson of the United States court for scheming to rob the government by having colored men impersonate absent witnesses and collect fees and mileage.

George W. Holtzinger of Holtz, Pa., discovered a burglar in his general merchandise store. On being apprehended by Mr. Holtzinger, the burglar attempted to escape. Mr. Holtzinger called upon him to halt, and then shot, killing the man instantly. He has not yet been identified.

J. H. Wilson, a miser, was buried in Mason county, W. Va., near West Columbia. He died near Columbus, Ind., and his son, Theodore Wilson, went from his home and identified him as his father, who had deserted his son 25 years ago. In the clothes of the miser was found \$10,000.

The police of Jersey City, N. J., have

seized three trunks of Charles Becker, who is under arrest in Newark, charged with being connected in a transaction through which the Nevada bank of San Francisco was swindled out of \$20,000. Nothing but the wearing apparel of Becker was found.

The executive council of the California Bankers' association has adopted a resolution declaring that gold should continue to be the standard of value and that silver and paper can be used with safety only in such quantity as can be absorbed and remain in circulation without compelling their redemption to maintain their parity.

At an early hour Saturday morning fire was discovered in the kitchen of Miller's cafe, corner Wells and Charles street, Sistersville, W. Va. It rapidly spread to Handenberg livery stable, Thompson & Miller's restaurant, Sewell's jewelry store, McHale & Moore, Telephone company and Baltimore Clothing company, all being heavy losers. Estimated loss, \$50,000.

The board of directors of the Colorado Mining Stock Exchange, at Denver, has expelled three brokers, Lorenzo Romans, H. L. Prentice and W. W. Hoag, who are accused of having conspired to defraud the members of the exchange by giving a fictitious value to the Gregory gold stock. The losses of other members through the deal are estimated at \$9,000.

A fatal encounter took place near Sunset, Tex., between J. W. Boon and son, Joe, on one side and A. M. Ward and son on the other, resulting in the instant death of Ward and the fatal wounding of his son. Boon was also shot through the head and may die. The Wards are tenants on the farm of Boon, and the difficulty grew out of a disagreement about pasturing stock. The weapons used were shotguns.

At Marion, O., Jesse Shisler, indicted on a charge of forgery and of obtaining money on false pretense, and William Logston, sentenced to the penitentiary one year for stealing cattle, escaped from the county jail through a window in the corridor by chiseling off rivets holding the iron bars. It is believed they had outside help. They are supposed to have gone away in a buggy, obtained from a livery stable by an unknown man. The rig has disappeared.

COUNTY CULLINGS.

Items Picked Up by the Bulletin's Correspondents in Mason and Elsewhere.

East Limestone.

Business is rapidly improving at the old Whaley stand.

Mr. Albert Kidder visited his sister Mrs. Lamb, of Bellevue, Sunday.

Mrs. Fannie Hise visited her daughter, Mrs. H. C. Little, of near Washington, Wednesday.

Mr. William Wilson, of Cincinnati, is here the guest of his nephew, Mr. Robert H. Williams.

Pelham Degman, of Springdale, whose health is much improved, spent from Saturday until Monday with his cousins, the Williams boys.

Providence is smiling on the prospective crops and with sensible and economical official government the downtrodden farmer could smile too.

Plenty of rain the past week, and all those who had the audacity to put out tobacco under present encumbrances about finished setting their crop, and have an abundance of plants left.

Miss Mary Daulton, of the West End, Maysville, accompanied by her sister, Mrs. Fannie Hise, and daughters, Miss Nan and Miss Julia, was the pleasant guest of Mrs. Richard C. Williams Friday.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

STATE SCHOOL FUND.

Superintendent Blatterman Replies to a Statement in the Bulletin.

Editor Bulletin: Allow me to correct an error which appeared in your paper of the 22nd which reads, "The Superintendent of Public Instruction has decided to make good the Ky. school fund deficit for the present year out of future funds. This will obviate the necessity of curtailing the terms of the common schools which was at one time seriously contemplated."

The Superintendent has no power in this matter. The fund required to make the January payment to teachers not being available when due by one half month has to be provided for out of the general revenue and will be paid in July. This had no effect upon the length of the school term. Every school in all the counties of the State was kept five months and must be by statutory provision. Mason County by her own school tax provides for terms longer than five months and her schools were kept generally eight months. The State fund for session 1896-97 it is expected will be less than last session, but all schools must be kept in session five months all the same, so it could not be contemplated to curtail the terms of the schools under the law.

CINCINNATI TOBACCO MARKET.

Prices Remained Firm All Last Week. Receipts and Offerings Still Limited.

The Cincinnati Leaf Tobacco Warehouse Company, in its circular for the week, has the following:

The market for all grades of both old and new tobaccos has remained very firm the entire week. Buyers having shown a desire to increase their purchases and watched the market very closely. The receipts and offerings of the new tobacco have been very limited, therefore most of the offerings have been of the old stock, and the sellers have been taking advantage of the opportunity to sell before the weather permits new tobacco to come in competition.

There was a demand for some of the better grades, which caused liberal offerings on Wednesday and Thursday, and proved very satisfactory to sellers and were mostly accepted. Low grades were firm at last week's prices, but those having color are scarce, and we think a small advance can be quoted on good color trash. Good red tips and medium leaf are very firm, as the competition of the French contract buyers for these grades of tobacco has caused the manufacturers' buyers to be a little more active in their bidding, and it is a good opportunity to dispose of this grade of tobacco until the contract is filled.

The reports from the country are more favorable for setting, and with seasonable weather we can expect a full crop set, and with the present reduction of stocks in the market, with a good crop grown, the farmers will realize good prices the coming year, and it will pay the growers well to make quality instead of quantity.

There have been some of the early shipments opened the past week that have been very soft, and those who are not looking after their early packing must expect damaged tobacco when they sell. The market closed firm, and while the sales are limited we consider it a mistake for holders not to take advantage of the present market.

For a good investment take stock in the sixth series of the People's Building Association, commencing May 2, 1896.

FARM FOR SALE

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

Fruit, Fruit.

The Fruit season of 1896 is close at hand and I have perfected arrangements with some of the largest and most successful Fruit growers of the Ohio River hills to handle their entire crop of

Strawberries, Raspberries, Blackberries, Peaches, Etc.

This fruit is grown on the elevated lands, principally in Lewis County, by growers of long experience, and will be much superior to any grown on the low or flat lands. It will be received by express and placed on the market here on the same day it is gathered, and will be furnished to dealers and consumers in first-class condition. Special prices always given to dealers, so as to enable them to sell at same prices I sell to consumers and make fair profits.

My Supply of Vegetables

will also be at all times full and of very best quality, and lowest prices.

A special invitation is extended country people to make my house their headquarters when in our city.
